Anttinen, H., see Takala, T. E. S., et al. 271

Attwell, D., see Wilson, M. 238

Baer, H. P., see Naughton, P., et al. 42

Baldo, G. J., Cohen, I. S., Van der Kloot, W.
Facilitation and the conduction of the nerve action potential at the frog neuromuscular junction 161

Bartolomei, M. S., Klein, L. E., Hsiao, P., Lo, C. S.
Effect of corticosterone and triiodothyronine on $(Na^+ + K^+)$-adenosine triphosphatase activity in rat submandibular gland 255

Bechem, M., Glitsch, H. G., Pott, L.
Properties of an inward rectifying K channel in the membrane of guinea-pig atrial cardioballs 186

Beck, F. X., see György, A. Z., et al. 241

Benedek, G., Szikszay, M., Obál, F.
Impaired thermoregulation against cold in capsaicin pretreated rats 243

Bernardini, G., see Peracchia, C., et al. 152

Bernardini, G., see Peres, A. 157

Blumgart, L. H., see Mathie, R. T. 223

Bohr, D. F., see Ven, C. M. van de 74

Bromm, B., Treede, R.-D.
CO_2 laser radiant heat pulses activate C nociceptors in man 155

Brunner, R., see Günther, H., et al. 180

Brzesińska, Z., see Kozłowski, S., et al. 63

Buchberger, A., Heldmaier, G., Steinlechner, S., Latteier, B.
Photoperiod and temperature effects on adrenal tyrosine hydroxylase and its relation to nonshivering thermogenesis 79

Bülow, J., see Bünger, C., et al. 129

Bünger, C., Bülow, J., Hjermind, J., Harving, S.
Hemodynamics of the juvenile dog knee in relation to increased venous outlet resistance 129

Campen, T. J., Vaughn, D. A., Fanestil, D. D.
Mineralo- and glucocorticoid effects on renal excretion of electrolytes 93

Carcassi, A. M., Concu, A., Decandia, M., Onnis, M., Orani, G. P., Piras, M. B.
Respiratory responses to stimulation of large fibers afferent from muscle receptors in cats 309

Cassola, A. C., see Greger, R., et al. 29

Cassola, A. C., Mollenhauer, M., Frömter, E.
The intracellular chloride activity of rat kidney proximal tubular cells 259

Chalmers, J. P., West, M. J.
Effects of brainstem lesions on the nasopharyngeal reflex in the conscious rabbit 119

Chatani, H., see Hosomi, H., et al. 134

Christensen, S., Ottosen, P. D.
Lithium-induced uremia in rats – a new model of chronic renal failure 208

Clanachan, A. S., see Naughton, P., et al. 42

Cohen, I. S., see Baldo, G. J., et al. 161

Colquhoun, D., see Ogden, D. C. 246

Concu, A., see Carcassi, A. M., et al. 309

Decandia, M., see Carcassi, A. M., et al. 309

Deecke, L., see Lang, W., et al. 342

Deetjen, P., see Oberleithner, H., et al. 166

Diezi, J., see Horisberger, J.-D. 213

Doucet, A., see El Mernissi, G. 139, 147

Dreyer, F., Schmitt, A.
Transmitter release in tetanus and botulinum A toxin-poisoned mammalian motor endplates and its dependence on nerve stimulation and temperature 228

Dudel, J., Parnas, I., Parnas, H.
Neurotransmitter release and its facilitation in crayfish muscle. VI. Release determined by both, intracellular calcium concentration and depolarization of the nerve terminal 1

Einwächter, H. M., see Haas, H. G., et al. 321

Elalouf, J. M., Roinel, N., Rouffignac, C. de
Stimulation by human calcitonin of electrolyte transport in distal tubules of rat kidney 111

El Mernissi, G., Doucet, A.
Short-term effect of aldosterone on renal sodium transport and tubular Na-K-ATPase in the rat 139

El Mernissi, G., Doucet, A.
Short-term effects of aldosterone and dexamethasone on Na-K-ATPase along the rabbit nephron 147

Ertl, G., see Fuchs, M., et al. 285

Essig, A., see Nagel, W., et al. 336

Falcke, A., see Fuchs, M., et al. 285

Fanestil, D. D., see Campen, T. J., et al. 93

Finke, R., Gross, R., Hackenthal, E., Huber, J., Kirchheim, H. R.
Threshold pressure for the pressure-dependent renin release in the autoregulating kidney of conscious dogs 102

Foley, W. J., see Rübsamen, K., et al. 68

Frömter, E., see Cassola, A. C., et al. 259

Fromm, M., Oelkers, W., Hegel, U.
Time course of aldosterone and corticosterone plasma levels in rats during general anaesthesia and abdominal surgery 249

Fuchs, M., Ertl, G., Falcke, A.
Changes of collateral perfusion pressure and segmental coronary resistances during reactive hyperemia in anesthetized dogs 285

Gainullin, R. Z., see Kukushkin, N. I., et al. 87

Garcia-Diaz, J. F., see Nagel, W., et al. 336

Gibbs, C., see Ziccone, S. 297

Glitsch, H. G., see Bechem, M., et al. 186

Green, H. J., Reichmann, H., Pette, D.
Fibre type specific transformations in the enzyme activity pattern of rat vastus lateralis muscle by prolonged endurance training 216

Greger, R., Oberleithner, H., Schlatter, E., Cassola, A. C., Weidtke, C.
Chloride activity in cells of isolated perfused cortical thick ascending limbs of rabbit kidney 29

Gross, R., see Finke, R., et al. 102

Günther, H., Brunner, R., Klußmann, F. W.
Spectral analysis of tremorine and cold tremor electromyograms in animal species of different size 180

György, A. Z., Beck, F. X., Thurau, K.
A method of preparing single renal tubules for electron microprobe analysis 241

Haas, H. G., Meyer, R., Einwächter, H. M., Stockem, W.
Intercellular coupling in frog heart muscle. Electrophysiological and morphological aspects 321

Hackenthal, E., see Finke, R., et al. 102
